October 26, 2023

Happy fall, y'all!

I hope you are doing well. It's hard to believe October is nearly over! These past few months have been busy for our family. Bethany just finished playing soccer for the season. Benjamin is expanding his yard work endeavors. Mom is homeschooling Bethany and running our household. Dad leads our ministries, records a radio show and podcast every week, posts videos online, and is recovering from surgery.

I am enjoying not being in school. I learn something new every day, but I don't do it for a grade anymore. As always, there is lots of ministry to do. We are thankful for the opportunities God has given us lately.

Last month, Dad and I had a booth at the Madison County Fair to promote Focus Evangelistic Ministries. It seemed like Dad knew about a third of the people who walked by! He had a great time just talking with the folks about the LORD and our ministries. It was encouraging to hear so many people say, "We've been praying for Freddie."

In early October, we took a trip to Maine for a youth event and for Dad to preach in Rockland. We climbed a mountain and had a cookout by a lake. Dad spoke to people who sat on hay bales under a big tarp. They listened attentively as he explained the gospel and challenged them to think critically and ask questions to find truth.

In other news, the Fall Retreat at Grace Farm went very well! We talked a lot about the existence and character of God. The most encouraging thing for me was seeing young kids participate in our discussions and ask such good questions after Dad preached! During the Fall Retreat, we took time to appreciate God's creation work. The Bible says, "The heavens declare the glory of God; and the firmament sheweth his handiwork" (Psalm 19:1). Nature is a powerful witness that God exists. The skies never take a break! From dawn to dusk, the heavens proclaim that God exists. In a world that has lost its mind, public schools are teaching children

that God doesn't exist. In a pitiful attempt to explain the existence of all things, they teach a scientific impossibility—the theory of evolution. This false science says life came from a colossal accident and that people have no value. Is it any wonder why the suicide rate is so high? We need truth now more than ever. We must equip our kids by teaching them the clear gospel and sound doctrine from the Word of God. Thank you for praying for the ministry of Grace Farm, our love gift for youth. Kids need the truth we're bringing!

God's blessings to you all!

### FOR PRAYER:

More workers to serve in churches and our ministry

New believers to grow in grace and knowledge

Strong Bible teaching churches

Eternal effect of evangelism and preaching

Eden's missionary support

Freddie's healing and no recurrence of brain tumor
